### SUMMARY

A web developer skilled in both Front-End and Back-End coding, including JavaScript, React, SQL, Node.js, Express.js, and more. I've completed various projects during my time at The Ohio State University and in previous university courses, all available on my portfolio at [jaimemarsh.com](https://jaimemarsh.com) and my GitHub. I thrive in learning environments and enjoy taking on new challenges, which keeps me up-to-date with evolving technologies and projects that change how we code and live daily. My goal is to make a positive impact wherever I work and in whatever projects I tackle.
